EDUCATION

University Of British Columbia

Kelowna, BC

Bachelor of Science in Computer Science

Sept. 2021 – Dec. 2025

- **Relevant Coursework:** Data Structures & Algorithms, Software Engineering, Web Programming, Database Design, Data Analysis, Object-Oriented Programming, Machine Architecture, Analysis Of Algorithms, Networking.

PROJECTS

Onyx - Social Media Platform | *PHP, JavaScript, HTML/CSS, jQuery, MySQL*

Jan 2024 – May 2024

- Developed a dynamic social media platform with key features akin to Twitter and Reddit, enabling real-time user interactions and content sharing.
- Created and managed community features, enabling users to join or create communities based on shared interests, with personalized feeds and real-time updates for engaging with content through comments, likes, and dislikes.
- Implemented robust post creation and timeline management using PHP and JavaScript, allowing users to post, view, and interact with content seamlessly and in real time.
- Built secure user authentication and session management systems, ensuring a safe and smooth user experience.

TreesRus - Online Retail Store | *JavaScript, HTML/CSS, MySQL, Express.js, Node.js*

Sept. 2023 – Dec. 2023

- Designed intuitive front-end components using HTML, CSS, and JavaScript, enhancing user engagement through a responsive and visually appealing interface.
- Implemented advanced data validation techniques to safeguard against SQL injection, ensuring secure and accurate data entry.
- Leveraged Express.js for efficient handling of HTTP GET/POST requests, and optimized SQL queries in MySQL for faster and more reliable data processing.
- Developed key functionalities, including a dynamic shopping cart, user reviews, admin controls, and authentication for login/sign-up pages.

Colligo - Communication Platform | *Express.js, MongoDB, Socket.IO, JavaScript*

Jan. 2024 – May 2024

- Developed live chat features using Socket.IO, enabling real-time communication with low latency.
- Designed comprehensive community tools such as voice chat channels, group messaging, and user roles to foster organized and interactive group communications.
- Utilized MongoDB for efficient storage and retrieval, optimizing the handling of large volumes of user and message data.
- Crafted a responsive UI with HTML and CSS, ensuring an optimal user experience across various devices and screen sizes.

TECHNICAL SKILLS

Languages: JavaScript, Python, PHP, Java, HTML/CSS, SQL, Assembly

Frameworks: Node.js, React, Express.js

Technologies: REST API, Git, Docker, Apache, MongoDB

Libraries: Bootstrap, Chart.js, Socket.IO, JDBC, Popper.js, pandas, NumPy, Matplotlib

EXPERIENCE

Painter

May 2023 – Sept. 2023

Student Works Painting

Kelowna, BC

- Achieved customer satisfaction through a commitment to quality, meeting project deadlines and exceeding client expectations
- Adhered to safety protocols, maintained a clean and organized work environment

Labourer

May 2022 – Sept. 2022

Yardmaster

Grande Prairie, Alberta

- Managed time effectively to ensure organization, maintaining efficiency and client satisfaction
